
SCRUM Meeting 2 for Sprint 2

Prepared by: Rose Soriano

Meeting Date: 11/16/21

Meeting Attendees

1. Joshua Kim
2. Brianna Navas
3. Daniel Chamorro
4. Sung Rung Yoo
5. Rose Soriano

Meeting Agenda Items

- Talk about updates with website code
- Update group on AWS status
- Make and agree on a database design
- Agree on design changes based on user studies from last weekend

Status Update Since Last Meeting

Accomplishments:

- Brianna:
 - Added several TM/HM page components
- Sung:
 - Made navbar tell the user what page they're on
 - Organized our CSS files
- Daniel:
 - UX/UI Improvements
 - Fixed home screen button aspect ratio
 - Made navbar easier to read
 - Changed site logo
 - Updated SpotifyAPI use to fit into the navbar
 - Converted output boxes on pages to Bootstrap table
- Josh:
 - Finished the python script for database with PokeAPI
 - Formatted the list of the data from the PokeAPI so it's easier to put in the database
- Rose:
 - Added several TM/HM page components
 - AWS compatibility with Flask

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
Make some progress on Team Composition page	Daniel (Main), Josh	yes
See if you can pull more specific data from PokeAPI	Josh	yes
Finish layout of HM/TM page	Brianna, Rose	yes
Look into if AWS RDS is compatible with Flask	Sung, Rose	yes
Individually conduct a user study	Everyone	yes
Finish all the functionality of type tutorial page	Sung, Josh	no
Fix navbar links	Daniel	yes
Vertically Center navbar logo	Daniel	yes

Before The Next Meeting

Plans:

- Work on database
- Edit wireframe diagram based on user feedback

Task Assignments:

Task Description	Assigned to
Draw out navigation map based on user study findings	Brianna
Clean up HMs and TMs page	Rose
Watch Flask App on AWS Instance Video/ Follow through networking tutorial	Rose
Populate Database	Josh
On TM/HM page, have a list of TMs or HMs get pulled from the PokeAPI database after the user specifies which types to show	Sung, Daniel, Josh
Add TextToSpeech button on main map page	Sung, Daniel, Josh
Create Spotify playlists, either of OG Pokemon music, or Pokemon 25th Anniversary album, or both	Brianna
Research RapidAPI and incorporation	Sung, Daniel, Josh

Minutes from Previous Meeting

Last meeting, we talked about the steps we plan to take for implementing our team composition page and TM's and HM's page. Daniel, Sung, and Josh decided to work on the team composition page. Brianna and Rose decided to work on the TM's and HM's page. For Sprint 2, we planned to have just the components of the page ready so we distributed who would be working on what task. We also discussed the upcoming user studies. We divided our target persona categories among the group to ensure we were getting a good range of users. For backend tasks, Josh and Sung planned to work on type tutorial functionality for the site. This would mean starting to plan out the Python script and seeing how we should implement API information into our database.
